

David Vyhldal

My Mission Statement:

My objective is to secure a Systems Administrator position with a dynamic company. I would like to utilize my education and work experience to provide creative solutions that will increase systems reliability while reducing expenses. I look forward using my diversified experience that I acquired from team-based, mission-critical work environments as an engineer who implemented, supported, and maintained a variety of systems and applications.

My Education:

2002 CompTia USA - A+ Certification, Net+ Certification

1995 CKD, Czech Republic - Bachelor's Degree in Business Administration / Industrial Engineering

My Work Experience:

2012-Present Time Warner Cable / Charter Spectrum - Nation Wide
